The amendment filed September 5, 1997, has been entered.

Claims 2-22, 24-28 and 33-41 are allowed.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 2, line 18, delete "said".

In claim 11, line 2, change "wherein means" to --wherein said means--.

In claim 16, line 4, change "for connecting" to --for selectively connecting--.

In claim 20, line 3, change "provide" to --provides--.

In claim 24, lines 19-20, change "to the stored" to --to a stored--.

In claim 36, line 3, change "microbolometer elements" to --microbolometer detector elements--.

In claim 37, line 24, change "and reference" to --and a reference--.

Authorization for this examiner's amendment was given in a telephone interview with David L. Henty (#31,323) on December 3, 1997.

This amendment was needed to provide proper antecedent basis and to correct other minor grammatical errors.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest an infrared imaging system or focal plane array having in

combination with the other required elements, the means for correcting specified by independent claim 2, 24, 33 or 37. Claims not addressed are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
